

My Day Book

When parents need to know what happens every day at school, My Day Book provides a simple and effective way for teachers and parents to communicate. The student brings My Day Book to the teacher at a set time every day. The teacher then completes the daily rubric and initials at the bottom of the page. Thats it! The rubric focuses on different types of instruction, since children often experience the same challenges in the same setting (whole group, small group, independent work, and transitions). There is a separate category for body behaviors and classroom safety, as well as a space for you to add two personalized dimensions. Theres even an area for the student to write down homework assignments, so parents know exactly what needs to be completed. My Day Book encourages kids to take ownership of their actions, and makes it possible for parents to affect positive change in their childs school experience.
