

Summers Storm (The Seasons Series Book 2)

In a world where folk are either common or noble, Temric FitzHenry, bastard of Graistan, is neither and both. If only he had met his equal, Philippa of Lindurst--also a bastard raised to noble expectations--before she had married. Then he discovers the abuse Philippa endures and his heart demands he steal her from her husband. As he does, he promises she will never know pain with him. Philippa cherishes each day she spends with Temric, even though she knows their love is the deepest of sins. Although Temric has hidden them well, Philippa knows their time together cannot last, that her husband will someday find them and they will pay the ultimate price for what they've done. On that day, Philippa must find the courage to defy death and reach for the happiness that is her true legacy.
